

A CALMING touch

Clinically proven to nourish your little one's skin, Becutan Aqua Water Wipes gently cleanse the baby's skin after every use. The gentle, water-based formula is specially developed to protect and nourish newborn skin, while remaining suitable for individuals with sensitive skin. The wipe fabric is 100% biodegradable with plant-based fibers.

With 99% water and ingredients of natural origin, Becutan wipes are ideal for newborn hygiene. The wipes are pH-neutral and dermatologically tested, and the ultra-soft fabric gently glides across the skin, leaving it clean, refreshed, and lightly moisturized.

How to use:

Clean your child's skin gently with the wipe. Wipes are intended for single use only. Do not flush down the toilet. After use, close the pack carefully to prevent the wipes from drying out. Use wipes to gently cleanse hands, face, and anywhere needed throughout the day. Perfect for refreshing and removing dirt or impurities on the go.

*Because care is not just what we do.
It's who we are.*
